# Electrolytic Capacitors Product Range

## ELECTROLYTIC CAPACITORS

**SCREW TERMINAL**

**SNAP-IN**

**MODULAR**

**MOTOR START**

### KENDEIL STRENGTHS

**Innovation**

**Flexibility**

**Excellence**

Development of **34 new capacitor series** in 10 years  
Integration of updated fully **automated machines**

**Custom designs** to satisfy all application requirements  
**Shortest delivery** times on the market

High capacitance and high voltage products (up to 630vdc)  
**Remarkable performances** and long useful life (up to 20000h 85°)

# Film Capacitors Product Range

## FILM CAPACITORS

**DC LINK**

**SNUBBER**

**AC FILM**

**AXIAL**

**MODULAR**

### KENDEIL STRENGTHS

**Innovation**

**Flexibility**

**Excellence**

Development of 15 new capacitor series in 10 years

**Custom designs** to satisfy all application requirements

High voltage products

**Automotive grade capacitors** for industrial applications up to 125° and THB up to 2000h

# Product Range

- **Electrolytic Screw Terminal Capacitors:** From general to specialized needs from 16v to 630v. SUPER-HIGH ENERGY: for example 41000uF 350V // 33000uF 400V // 30000uF 450V
- **Electrolytic Snap-In Capacitors:** Options also for LOW ESR and miniaturized designs from 16v to 630v.
- **Modular Capacitors:** Customizable solutions from 450v to 1050v.
- **Film Capacitors:** Suitable for DC link, snubber, and AC 1ph or 3ph, also 85°C 105°C 125°C

## OUR STRENGTHS

- **Innovation:** 34 new capacitor series in the past 10 years.
- **Flexibility:** Custom designs for specific application needs.
- **Excellence:** High capacitance and high voltage with long life.
- **Fast Delivery:** Among the shortest delivery times in the market.
- **Test Laborstory:** 3 test lab inside the facility

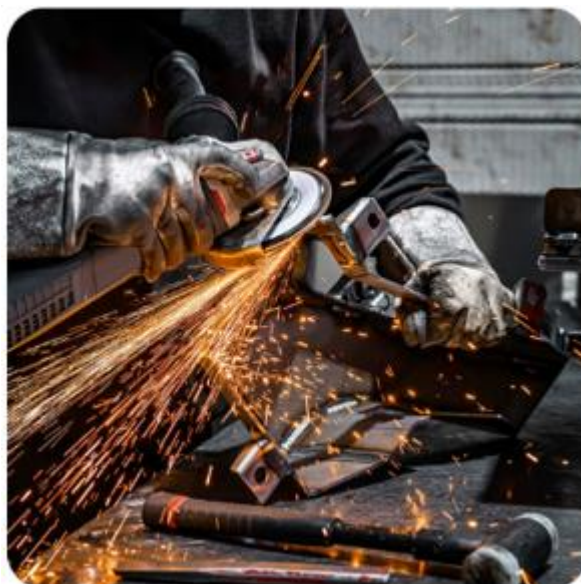

# Main Applications

## Applications

Our capacitors are essential in sectors including:

- **Energy:** Solar and wind power.
- **Industrial:** Drives, welding, and UPS.
- **Transportation:** Railway traction and EV propulsion.
- **Medical:** High reliability equipment

# QUALITY and R&D

- Committed to superior quality through rigorous testing and certification.
- Endurance and shelf life tests.
- Thermal cycle tests and new electrolyte characterization.
- Strict raw material quality control
