ENGINEERING AND MANUFACTURING OF CUSTOM TRANSFORMERS AND SELFS

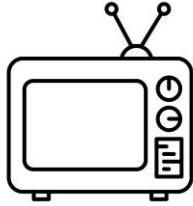

Manufacturing and design office: Europe

Years of experience: 40

OUR STRONG POINTS:

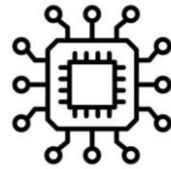

- **R&D Group:** Specialization in high voltage and wounded components according to your requirements
- **Customs projects:** Follow-up and support for your projects – Dedicated team
- **Quality engineering:** Materials and new products homologations, climatic and life tests
- **Production engineering:** Optimization of productivity and continuous improvement
- **Precision winding:** Wires from 0.02Bm diameter
- **Inhouse Moulds and injection workshop:** For technical thermoplastics
- **Vacuum potting:** Until 1mb with impregnation control, colorimetric measurement...

OUR MARKETS:

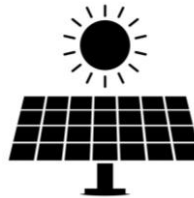

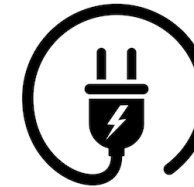

•TV AND MONITOR SPARE PARTS

•TELEPHONY

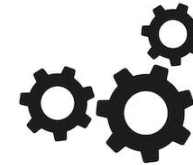

•ELECTRONIC EQUIPMENT

•POWER SUPPLIES

•SOLAR ENERGY

•INDUSTRIAL ELECTRONICS

•CONSUMERS ELECTRONICS
EQUIPMENT

OUR PRODUCTS RANGE:

•Encapsulated transformers

•Toroidal transformers

•SMPS

•Safety transformers

•Switch mode

•SMD

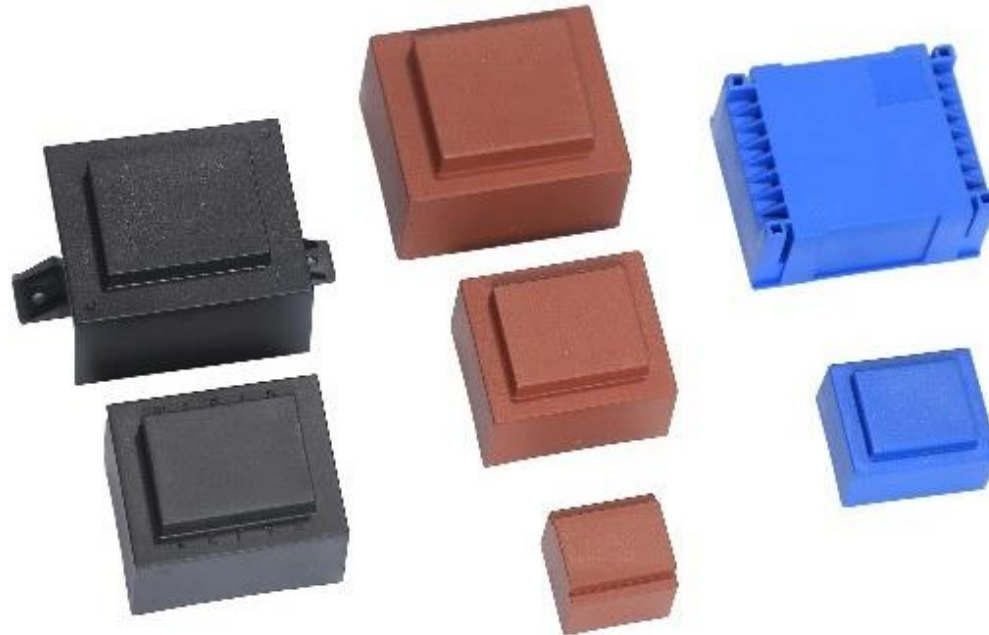

•Other windings

ENCAPSULATED TRANSFORMERS:

- **Mini series:** designed for low power and miniature products (0,35-0,6VA)
- **E series:** designed for wide range of power and limited space (0,5-55VA)
- **U series:** designed for wide range of power and limited height (2.4-64VA)

OUR OTHER TRANSFORMERS:

- Toroidal transformers: from 8VA to 20KVA

- Switch mode: Appropriated for Flyback, Forward, Push-Pool topologies

- SMPS: Low cost regulated flyback power supply

- Safety transformers: Range goes from 2VA to 200VA

TECHNICAL SUPPORT AND QUALITY:

- 25 employees to assist our customers in order to ensure a technical support

- An expertise and 30 years of experience and a technical knowledge of the market

- Our quality engagement in our products and services is guaranteed by the ISO certificate with the 9001:2015 quality.
